

# The Scanwill MP Hydraulic Pressure Intensifiers for Pressure Testing

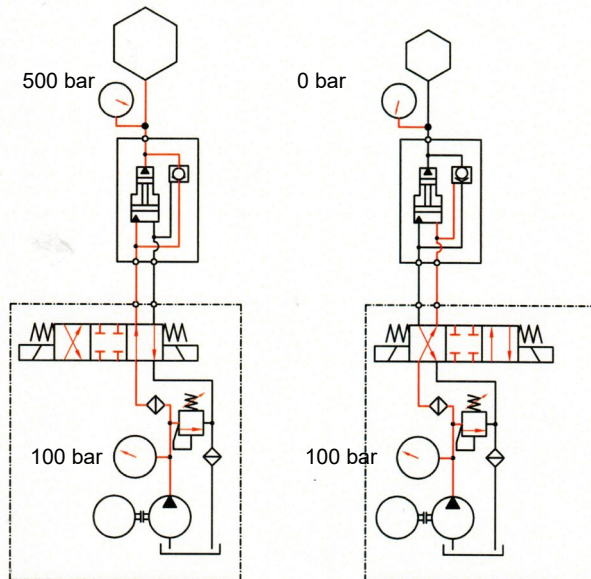

More Pressure. More Power

The Scanwill MP- intensifiers are used to provide test pressures for hydraulic components (500 - 800 bar) and for tubes and hoses for diesel engines (2,000+ bar)

Pressurizing

De-pressurizing

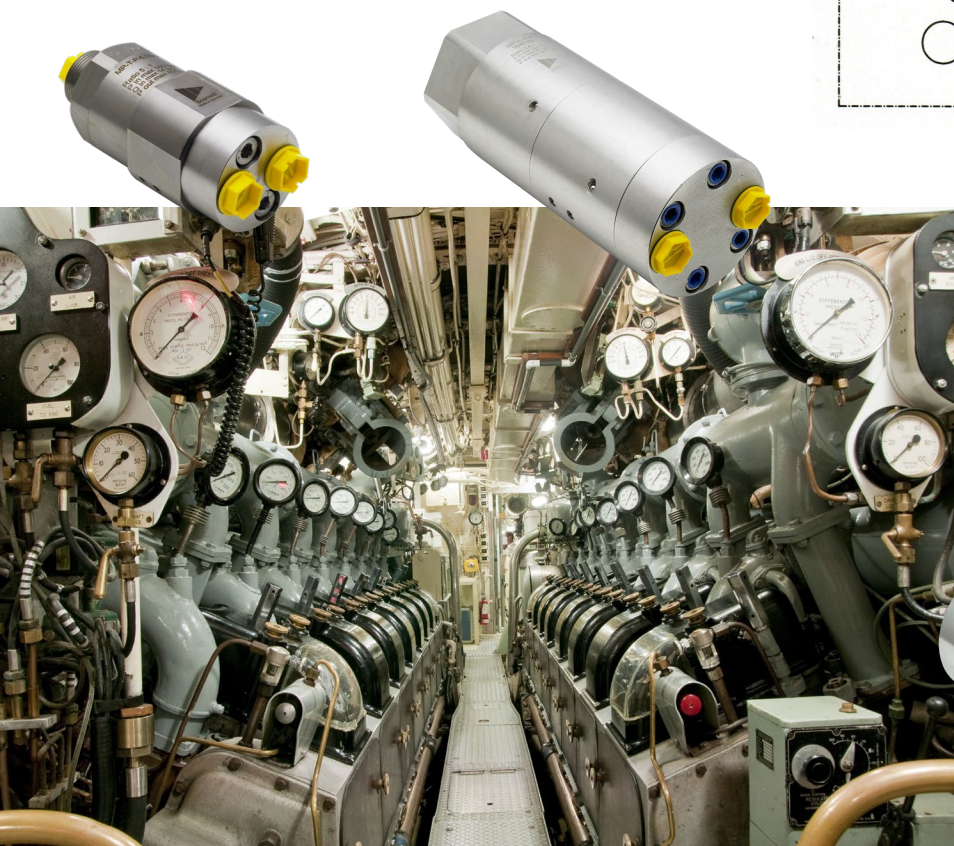

The MP-T intensifier (In-Line)

Test pressures up to 800 bar

The MP-L intensifier (In-Line, high flow)

Test pressures up to 800 bar

The MP-2000 intensifier (In-Line)

Test pressures up to 2,500 bar

The MP-4000 intensifier (In-Line)

Test pressures up to 4,000 bar
